

**Recommended Use:** Use **Lo Han Sweet®** to enhance taste. Mix with tea, coffee or other beverages, desserts and foods as desired.

**Lo Han Guo** is the fruit of *Momordica grosvenorii*, a plant cultivated in the mountains of southern China. Mogrosides, which are water extracted from the Lo Han fruit, offer a pleasant taste, without affecting blood sugar.

**Lo Han Guo Mogrosides are up to 250x sweeter than sugar.**

**Xylitol is as sweet as sugar, having 40% less calories.**

**Xylitol** is a sweet-tasting, naturally-occurring polyol (which is a type of carbohydrate) that has a distinct cooling sensation in the mouth. Xylitol is metabolized differently from conventional sugar, and does not have the same effects as ordinary table sugar: moreover, it has fewer calories. **Inulin-FOS** (FructoOligoSaccharides) is a highly-soluble fiber.

**Lo Han Sweet® advantages:**

- **Low Glycemic Index.**
- **Heat Stable:** Very stable under high temperature, and can be added to hot as well as cold foods. Suitable for cooking and baking.
- **Low Calorie:** 2 Calories per 2 g serving (about 1/2 teaspoon).

Keep out of the reach of children.

For human consumption only.
