NATURAL

LIQUID VITAMIN E

MIXED TOCOPHEROL
COMPLEX

Vitamin E is an important, essential nutrient that is crucial for good health.* It is the body's primary fat-soluble antioxidant and appears naturally in several variant forms, called tocopherols. It is found in most vegetable oils, wheat germ, raw seeds and nuts, eggs, leafy vegetables and legumes. **Vitamin E** supports various bodily functions, including nutritional support for the immune system.* As an antioxidant, it helps fight cell-damaging free radicals that cause oxidative stress in the body, which may contribute to the premature aging of cells.* This formulation provides natural Vitamin E in a convenient dropper dosage form.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
