

**Suggested Use:** As a dietary supplement, mix 1 scoop into your favorite beverage as needed for added energy or calories. For best results use a shaker cup. When stirring with a spoon, add MCT powder first then liquid. Can be added to protein powders and meal replacements for added calories and energy.

**MCT Oil Powder** 10.08g †  
[Medium Chain Triglyceride Oil 60%, maltodextrin 40%  
(used for conversion process from oil to powder)]\*\*

\* Percent Daily Values are based on a 2000 calorie diet.

† Daily Value not established.

Other Ingredients: ABSOLUTELY NONE

\*\*NutraBio does not add any fillers, excipients or additives to our MCT Powder. However, maltodextrin is used in manufacturing process to convert the MCT oil into a powder form. During this process, the oil is spray dried onto maltodextrin. This is the only known method for converting MCT oil to a powder form. The maltodextrin carrier adds carbohydrates which is reflected in the Supplements Facts panel.
