The Sunfood™ Difference

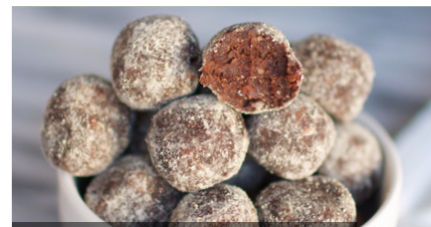

Maca root was a sacred crop of the Incas, with Black Maca being the most rare and valuable. Its dark pigments and adaptogenic compounds are known to improve hormone balance & libido in men and women, and may increase potency in men.

Maca was cherished by Incan warriors for its power to increase energy, stamina and strength for battle. Today, athletes are enjoying the same benefits discovered centuries ago.

Grown at a high elevation in its native habitat in the Peruvian Andes, our Black Maca Powder is simply made by grinding sun-dried roots into a fine powder.
