

UNLEASH YOUR POTENTIAL®

LeanFire Diet Aminos™ was designed to deliver premium weight loss results while working to spare lean muscle. While helping you burn fat during workouts, too many other thermogenics also burn muscle. LeanFire Diet Aminos is different. In addition to advanced thermogenics, the formula also includes vital branched-chain amino acids to replenish essential compounds lost during dieting.

Furthermore, in addition to helping you double your weight loss[‡], Verilean™, the key ingredient in LeanFire Diet Aminos, has been clinically shown to improve the lean muscle mass to fat mass ratio by 2.5x vs. the placebo group (4.1%/0.7% vs. 1.6%/0.5%).

Rounding out the formula is Force Factor's unique *thermovigilance*™ system, which is a specific, scientifically studied ratio of caffeine and L-theanine. This combination provides all of the energy, focus, and concentration benefits of caffeine while virtually eliminating dreaded jitters.

Stay on track and achieve your weight loss goals with smooth and flavorful LeanFire Diet Aminos. Incredible **energy**, a coveted 2:1:1 instantized blend of **BCAAs**, superior **fat burning**, and **zero calories** make this a must-have formula for any serious dieter.

DIRECTIONS | Mix 1 level scoop with 8 oz. of cold water and drink with your first large meal of the day. Mix 1 level scoop with 8 oz. of cold water and drink with your second large meal of the day. Do not take within 4 hours of bedtime.

Keep out of reach of children. For adult use only.

Allergen Warning: Manufactured by equipment which processes products containing milk, eggs, soybeans, wheat, shellfish, fish oil, tree nuts, and peanut flavor.

Precautions: Use only as directed. Consult a healthcare professional before use if you are pregnant or nursing, have a medical condition, or use prescription medications. Store in a cool, dry place. Protect from heat, light, and moisture.

The recommended dose of this product contains about as much caffeine as one and a half cups of coffee. Limit the use of caffeine-containing medications, foods, and beverages while taking this product, because too much caffeine may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat. Do not consume alcohol, drive, or operate heavy machinery while taking this product.
