

Maintaining healthy gut flora renews the body's energy and keeps the body's immune and digestive systems functioning optimally.

Candidase™ contains two enzyme blends that support the body's natural ability to maintain a healthy balance of intestinal flora.* Cellulase breaks down the yeast cell wall while protease digests the interior proteins. This combination provides a gentle, cleansing effect without harsh discomfort common to cleansing.*

Recommended Use: For moderate symptoms: 2 capsules on an empty stomach, one hour before or two hours after a meal three times daily for 7 days.

For acute symptoms: 2 capsules on an empty stomach, one hour before or two hours after a meal three times daily for 14 days. For more advanced support, Enzymedica's **Candidase™ Extra Strength** may be helpful.

For maintenance: 2 capsules daily.

For best results, 1 capsule of **Enzyme Defense™** may be added each time **Candidase** is taken.

Contraindications: **Candidase** should not be taken with any timed-release medication that uses cellulose as its time-release mechanism.

Thera-blend™ is an exclusive process that combines multiple strains of enzymes that work in specific pH levels, resulting in superior performance in the body.
