MASS-TECH® – The Scientifically Superior Mass Gainer

New MASS-TECH® is an advanced muscle mass gainer designed for any individual who has a tough time adding size, is in their bulking phase or wants to break through their strength plateaus. Power-packed with 80g of protein and 1,000 mass-producing calories when mixed with 2 cups of skim milk, this potentially superior formula is also enhanced with a proven anabolic driver for rapid mass and strength gains!▲

• Better Quality Calories Designed for the Hardgainer

MASS-TECH® is a powerful and scientifically superior weight gainer designed to be taken twice daily. The new, powerful formula now delivers a massive 1,000 calories (when mixed with 2 cups of skim milk) derived from high-quality protein and quickly digested carbohydrates.▲

• More Protein Per Serving Than Other Weight Gainers

The new and improved formula features an 80g multi-phase protein system (when mixed with 2 cups of skim milk), which supplies fast- and slow-digesting proteins. The multi-phase protein system provides critical amino acids to the body at varying speeds.▲

• More BCAAs and L-Leucine Per Serving Than Other Weight Gainers

The formula's protein dose supplies a massive 8g of L-leucine and 17g of BCAAs when mixed with 2 cups of skim milk, which helps fuel your skeletal muscles, preserve muscle glycogen stores and reduce the amount of protein breakdown.▲

• Build More Strength

Unlike other leading gainers that contain little to no creatine, MASS-TECH® delivers a 10g clinically validated dose to increase strength fast.▲

• Helps Replenish Glycogen Stores

Supplies 156g of carbohydrates when mixed with 2 cups of skim milk through a multi-phase carb complex to both spike insulin, quickly shuttling creatine into the muscle, and promote muscle glycogen replenishment, helping to put the body into an anabolic state.▲

BASED ON RESEARCH AT A LEADING AMERICAN UNIVERSITY

TEST SUBJECTS RAPIDLY ADDED MASS!▲

▲An 8-week study examined the addition of 2,000 calories (over 2,000 calories are found in 2 servings of MASS-TECH® each mixed with 2 cups of skim milk) to a high-protein diet containing approximately 2,300 calories and a weightlifting program. On average, subjects gained 6.8 lbs. of mass while control subjects gained 1.3 lbs.▲

TEST SUBJECTS INCREASED CHEST & ARM SIZE!▲

In the same study noted above, test subjects also gained massive size where it matters most – directly on their chest and arms. They gained 1.2 in. on their chest and 0.6 in. on their arms versus the control group, who only added 0.5 in. and 0.2 in.▲

Other Ingredients: Multi-Phase Carb Complex (Glucose Polymers, ModCarb™ [Oat Bran, Quinoa, Buckwheat, Millet], Isomaltulose), Multi-Phase Protein System (Whey Protein Concentrate, Calcium Caseinate, Egg Albumin, Whey Protein Isolate 97%, Hydrolyzed Whey Protein, Whey Protein Isolate), Cocoa Extender (Carob Powder, Coconut Oil, Corn Syrup Solids, Sodium Caseinate, Mono and Diglycerides, Dipotassium Phosphate, Silicon Dioxide, Natural Flavor), Cocoa Powder (Processed with Alkali), Natural and Artificial Flavors, Calcium Carbonate, Gum Blend (Cellulose Gum, Xanthan Gum, Carrageenan), Soy or Sunflower Lecithin, Salt, **Enzyplex** (Papain, Amylase), Acesulfame-Potassium, Sucralose, Medium Chain Triglycerides. **Contains milk, soy, egg and coconut ingredients. Processed in a facility that also processes peanut, tree nut, fish/crustacean/shellfish oil and wheat ingredients.**

See Supplement Facts for cholesterol and fat content.

Directions: Mix 1 serving (5 scoops) with 16 oz. of water or skim milk and consume 2 times daily. Use a blender for best results. Take in the morning, between meals or post-workout. Read the entire label before use and follow directions provided. Drink 8 to 10 glasses of water daily for general good health.

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. Consult a medical doctor if you have a medical condition or before starting any diet or exercise program. **KEEP OUT OF REACH OF CHILDREN.**

This product contains 10g of creatine monohydrate per serving, which is in addition to the 63g of protein per serving shown in the Supplement Facts. Creatine is not counted toward the total amount of protein in this product.

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F).

▲These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
