

3 NUGENIX

Nugenix® Estro-Regulator is a powerful, cutting-edge supplement that can be stacked with Nugenix Free Testosterone Booster in order to maximize results. One of the key super ingredients found in Nugenix Estro-Regulator is Diindolylmethane (DIM), which is an aromatase inhibitor that can help support estrogen balance—a critical factor for anyone wanting hardcore gains. In vitro evidence demonstrates DIM's anti-estrogen activity -- Through its interaction with estrogen binding sites, it can help inhibit the reaction that converts testosterone into estrogen. Overall, this activity can diminish the impact estrogen has in the body! *

POWERFUL ANTI-AROMATASE MODULATOR

FEATURING: CHRYSIN & DIM
