CODE 791313

Coconut Oil Soft Chews are a convenient alternative to pills and a great addition to your daily nutrition and health regimen. Just one soft chew provides 500 mg of coconut oil. Coconut oil is a natural source of medium chain triglycerides (MCT), which are quickly absorbed by the body and used as energy. * MCT are hydrolyzed more rapidly and metabolized more completely than long chain fatty acids. These delicious soft chews are gluten free, naturally free of trans fats and 100% cholesterol free. Plus, they're individually wrapped, making them easy to take on the go.
