

DUAL-CAPSULE, PILL-WITHIN-A-PILL TECHNOLOGY

Introducing the world's most advanced new dual-capsule technology that harnesses the power of a super-concentrated, micronized powder capsule suspended within a highly bioavailable liquid capsule. The rapid-release liquid is isolated from the micronized powder, separating the ingredients in their most stable inherent states until the moment of absorption! This advanced technology overcomes the limitations of outdated liquid and powder pills by synergizing two capsules in one. It's technology meeting efficacy without compromise.

TECHNOLOGY MEETS EFFICACY WITHOUT COMPROMISE

ADVANCED DUAL-CAPSULE TECHNOLOGY

This breakthrough, patented process physically isolates distinct active ingredients into two separate capsules. The inner micronized-powder-filled pill harnesses three scientifically researched doses of the most powerful musclebuilding, test-boosting and performance-enhancing ingredients available. In fact, they have been shown in human clinical studies to build 8.8lbs of lean muscle versus the placebo group, boost free testosterone and decrease estradiol in just 7 days! [▲]
