

Why use Ultra Absorption CoQ-10?

Regular CoQ-10 can be difficult for your body to absorb, and if you're not truly absorbing your CoQ-10 supplement, you're not getting its full benefits. Ultra Absorption CoQ-10 has AquaCelle®, a breakthrough delivery system that's designed to increase the bioavailability of nutrients. It's clinically shown to allow you to absorb 144% more CoQ-10.^{†*}

Why use CoQ-10?

- CoQ-10 supports heart health, and it's an essential component of your heart's energy producing system.*
- CoQ-10 is beneficial for those taking statin drugs.^*
- Plus it's an important antioxidant, which can help combat harmful free radicals associated with cell aging.*

[†]In a randomized, double-blind trial, 48 healthy adults consumed one of five 100 mg formulations of CoQ-10. Those who took AquaCelle CoQ-10 had significantly higher blood CoQ-10 levels vs. those who took Solubilized CoQ-10 when all post-dosing time points were combined (up to 24 hrs).

^{*}Statin drugs can reduce the amount of natural CoQ-10 within the body. Supplementing with CoQ-10 helps replenish CoQ-10 levels within the body. CoQ-10 is not a statin replacement and does not lower cholesterol. Consult your doctor before discontinuing any medications when taking CoQ-10.
