KARBOLYN®

The Future of Carbohydrates

Karbolyn® represents the dawn of a new era of carbohydrate supplementation. Unlike other carbohydrate sources, Karbolyn® is quickly absorbed into the bloodstream like a simple sugar but without the typical spike or crash caused when your muscles run out of fuel. In fact, Karbolyn® is a "homopolysaccharide" (relatively complex carbohydrate) that has been proven to be absorbed 18.21% faster (see chart below) than pure Dextrose (a simple carbohydrate), yet it still provides the sustained energy of complex carbohydrates.

Advanced Technology Makes Karbolyn® Superior to Other Carbohydrates

Carbohydrate sources such as unprocessed waxy maize starches are inferior for rapid glycogen loading and nutrient absorption. These starches have not been accurately processed to attain rapid absorption into the bloodstream. However, Karbolyn® uses a proprietary multi-stage "Enzymatic Milling Process" to reach optimal molecular size. This yields a superior carbohydrate for quick gastric emptying without any side-effects (such as stomach bloating or cramping) and is rapidly absorbed into the bloodstream.

Karbolyn® vs. Glucose

A CONTROLLED GLUCOSE LEVEL STUDY WITH KARBOLYN® VS. GLUCOSE. BioGenetics Research & Development Laboratory, December 2006.

Results: Karbolyn® was absorbed 18.21% quicker than glucose and had a sustained energy response of nearly 1 hour over glucose. Glucose peaked at 30 minutes but dropped dramatically, and was spent before 120 minutes.

However, Karbolyn® peaked at 45 minutes and was still present after 120 minutes. This would make Karbolyn® superior to glucose for an instant burst of energy and provides enough sustained energy to endure a workout, ride or athletic event.

OTHER INGREDIENTS: Citric Acid, Natural & Artificial Flavors, FD&C Red #40, Sucralose.

SUGGESTED USE: Mix 1 scoop in a shaker cup with 10-16 ounces of water and drink 60 minutes before exercise.

DAILY DOSING GUIDE FOR BEST RESULTS:

PRE-WORKOUT	INTRA-WORKOUT	POST-WORKOUT
ENERGY & PERFORMANCE	INTENSITY & ENDURANCE	REPLENISH & RECOVER
Mix 1 Scoop in 10-16 oz. of water	Mix 1 Scoop in 10-16 oz. of water	Mix 1 Scoop in 10-16 oz. of water

STORAGE: Keep lid tightly closed in a cool, dry place away from children.
