The Sunfood[™] Difference

Organic Beet Powder has several special nutrients that set it apart from other foods. Its bright red color comes from betacvanins - immune-boosting antioxidants that are able to neutralize harmful free radical molecules.

Beets are known as a nitrate-rich superfood. Nitrates may support healthy blood flow, increase energy, and stamina, Our Beet Powder also has betaine, which may help liver function, cellular reproduction, and aid in the creation of carnitine - which helps your body turn fat into energy.

Like all Sunfood[™] products our Beet Powder is as pure as it gets - made by simply grinding dried beet roots.

GLUTEN

Just Beet It Smoothie

2 Tbsp Beet Powder 1 Tbsp Magui Powder 1 Tbsp Melted Coconut Oil

Blend all ingredients together until smooth. Enjoy!
