OUR QUALITY COMMITMENT TO YOU

Since 1935, our mission as the industry leader has been to provide you with the highest-quality nutritional supplements. We continue to stand behind this mission. If you're not 100% satisfied with your purchase, return the unused portion of the product with your receipt within 30 days and we'll either refund your money or find you a replacement product that is right for you.

PROGESTERONE CREAM

Progesterone is important during a woman's menstrual cycle. During perimenopause, the body's natural production of progesterone begins to slow down. Topical use of this silky cream provides progesterone, in a base of chamomile extract, avocado oil and soothing aloe vera.

For nutritional support, use with GNC Women's Ultra Mega® Menopause Vitapak® Program, a complete program that conveniently combines nutrients and special ingredients designed to support a woman's overall health as she experiences mid-life changes.

GNC
