

## UNLEASH YOUR POTENTIAL®

The ability to exercise your true potential in life depends ultimately on your mental fitness. Whether you're an athlete, a student, a hardworking professional, or a grandparent, you undoubtedly want to perform to your full cognitive capacity.

In a world where every second counts and memories matter more than ever, finding the highest gear for your brain — proverbially limitless next-level performance — is essential. Peak presence and awareness, sharp recall, and decisive mental fortitude are the hallmarks of optimal brain function.

If your goal is to think more clearly, learn more quickly, or operate more consistently at the top of your game, an effective nootropic formula, innovatively engineered to deliver superior cognitive performance, can help give you your best brain.

The scientists at Force Factor® masterminded the three proprietary blends in Forebrain® to help you maintain your mental edge. Carefully selected premium ingredients in the MemorySafe™, ThinkUp Advanced™, and BioBrain+™ blends work synergistically to help you thoroughly Unleash Your Potential®.

### DIRECTIONS

Take 1 capsule daily with breakfast.

## TRIPLE-ACTION NEUROSCIENCE

This intelligent formula necessitates only one small capsule per day, with potent ingredients working to deliver myriad brain health benefits.

The MemorySafe™ blend's *Bacopa monnieri* is a time-tested Indian herb which helps promote cognitive performance, improve recall, and speed information processing for smarter decision-making. Clinical studies suggest that a potent red grape extract from Sicily called COGNIGRAPE® may help improve memory — including executive function and learning — while also helping to promote better attention, concentration, and mood.

zümXR®, a sustained release form of caffeine in the ThinkUp Advanced™ blend, works to produce clear mental energy, focus, and awareness while it balances bacopa's adaptogenic effects to help keep you sharp and alert. A premium source of vincamine called Thinkamine™ is included along with huperzine A, a natural extract thought to increase levels of acetylcholine in the brain, further supporting memory and cognition by intensifying neurotransmitter activity.

Forebrain's final component, BioBrain+™ with BioPerine®, was added to help with the absorption of key constituents.

Other Ingredients: Gelatin, Microcrystalline Cellulose, Silica, Magnesium Stearate, FD&C Yellow #5, FD&C Yellow #6, Titanium Dioxide.

Keep out of reach of children. For adult use only.

**Allergen Warning:** Manufactured by equipment which processes products containing milk, eggs, soybeans, wheat, shellfish, fish oil, tree nuts, and peanut flavor.

**Precautions:** Use only as directed. Consult a healthcare professional before use if you are pregnant or nursing, have a medical condition, or use prescription medications. Do not use for more than six months. Store in a cool, dry place.

The recommended dose of this product contains about as much caffeine as half a cup of coffee. Limit the use of caffeine-containing medications, foods, and beverages while taking this product, because too much caffeine may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat. Do not consume alcohol, drive, or operate heavy machinery while taking this product. Protect from heat, light, and moisture.
