

# PEPTIDES FOR ANABOLIC STRENGTH

Peptide 185 is composed of two leucine molecules bonded together, creating a patented dipeptide structure known as DL-185™. The power of DL-185™ has been supported by human clinical research. It activates the master anabolic switch, promoting enhanced strength and muscle protein synthesis.▲

## Supplement Facts

Serving Size: 3 Capsules  
Servings Per Container: 28

| Amount Per Serving                                 | % Daily Value |
|--|---------------|
| Calories   | 10            |
| DL-185™ dileucine (L-leucyl-L-leucine monohydrate) | 2,000 mg †    |

† Daily Value not established.

**Other Ingredients:** Capsule (Hypermellose, Calcium Carbonate), Magnesium Stearate, Silicon Dioxide.

**DIRECTIONS:** Take 1 serving (3 capsules) with a glass of water and consume once daily after a workout or in the morning on non-training days. Do not exceed 3 capsules in a 24-hour period. Read the entire label before use and follow directions provided.

**WARNING:** For adult use only. Do not use if pregnant or nursing. Consult a medical doctor before use if you have a medical condition or before starting any diet or exercise program. **KEEP OUT OF REACH OF CHILDREN.**

**NOTICE:** Use this product as a food supplement only. Do not use for weight reduction.

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F). Contains bioengineered food ingredients.

**144%**  
More Strength▲1

**60%**  
More Anabolic  
than Leucine▲2

▲Subjects taking DL-185™ significantly increased total strength by 144% compared to subjects taking a placebo (DL-185™ 156 lbs. vs. placebo 64 lbs.)▲

▲In a groundbreaking study, subjects taking DL-185™ demonstrated a 159% greater activation of muscle protein synthesis compared to baseline and 60% greater than leucine.▲

### COMMITMENT TO RESEARCH
