

The NewVigor® Difference

Nothing else offers all the benefits of NewVigor!

- ✓ **Be your best at any time.**
With NewVigor, there's no need to plan when to take a pill. Embrace spontaneity!
- ✓ **The right ingredients in the right amounts.**
A combination of ingredients is better than just one or two, but products with too many ingredients rarely have an effective amount of any of them. It's not enough to say "it's in there." We supply enough of our ingredients to give you their full benefit.
- ✓ **Natural ingredients and a safe formula with no yohimbe.**
We use only natural and naturally occurring ingredients. No drugs. No questionable natural ingredients like yohimbe, which often have undesirable side effects.
- ✓ **A healthy formula with benefits beyond the bedroom.**
All our ingredients are widely used for many beneficial purposes. You can feel good about taking it regardless of how little or how much sexual support you desire, or your level of sexual activity.
- ✓ **A balanced formula.**
NewVigor is carefully formulated so you can adjust the amount to suit your needs.
- ✓ **Supported by scientific research.**
Links to clinical studies and other research can be found on our web site.
- ✓ **Assured quality.**
NewVigor is manufactured in the U.S.A. in a GMP certified facility to assure that the product meets purity standards and contains exactly what it says on the label.
