PRE-WORKOUT

TROPICAL PUNCH

BLACK ANT!?

Yep! Your new favorite pre-workout is built from the barracks of elite warriors. Soldiers dedicated to carrying inhuman weight, who make progressive overload their default state. They wake to break PR's like lives are at stake and they're the only ones to ever claim 50x strength—of course we're going to use that to our advantage!

BLACK ANT isn't for those who call the stair-climber leg day, social butterflies who lift like a spa day, or anyone more obsessed with their fit check than with their progress. But we don't waste time on the cute. Take that vibe to your stylist. We're here to redefine power.

We have only two goals in mind. Killing any who oppose our queen (obviously) and lifting heavy things. Like **REALLY** heavy things.

Join the colony now with **BLACK ANT**.

- **CREATINE MONOHYDRATE:** The classic way to support muscle growth. If it ain't broke, make it better.*
- **CREASOL™:** Specifically developed to enhance the benefits creatine and promote sustained energy.*
- **RIPFACTOR®:** Shown to accelerate gains in muscle strength, endurance, and muscle mass in just 14 days.*
- **BLACK ANT:** Rich in important nutrients that stimulate energy-producing ATP.*
- **BETAINE ANHYDROUS:** Supports energy production and improves resistance exercise performance.*
- **DYNAMINE™:** Helps prolong caffeine metabolism, boosting your energy for longer workouts.*
