

Nature's Lab Gold Magnesium Glycinate is a powerful supplement that may help support heart health, mood, and energy levels as well as digestive support.†

Nature's Lab Gold Magnesium Glycinate features Albion® Magnesium chelate, a patented form of magnesium that's been clinically researched and chemically validated with TRAACS® (The Real Amino Acid Chelate System). This patented form mimics the body's natural chelation process to produce readily absorbable magnesium for supplement use.†

Warnings: Pregnant or lactating women and people with known medical conditions and/or taking drugs should consult with a qualified healthcare practitioner prior to taking dietary supplements. Discontinue use and consult your doctor if any adverse reactions occur.

†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Manufactured in the USA with imported and US ingredients.
