

WE SUPPLEMENT THE FIT TO BECOME THE FITTEST

BETA-ALANINE is a non-essential beta amino-acid made with CarnoSyn®, a patented ingredient clinically proven to reduce muscle fatigue by counteracting the development of lactic acid, created by an influx of Hydrogen Ions (H+).* When Beta-Alanine is readily available in the bloodstream, Carnosine levels rise which delay the buildup of H+ ions, translating into delayed muscle fatigue, better strength, endurance, and optimized performance.* When you need one more rep, Beta-Alanine will help you get it.*

SUGGESTED USE: Mix one scoop with 8oz of water, before, or during training for optimal performance and results.

WARNING: Consult with a physician prior to use if you have any medical conditions. Do not use if pregnant or lactating.
