

ABOUT DEMO DAY

Demo Day is a premium carbohydrate powder that can be used before, during, and/or after training to enhance pumps, energy, performance, and recovery. Demo Day features a combination of fast, medium, and slow-digesting carbohydrates to fuel your toughest training sessions without causing gastrointestinal distress. Demo Day features 4 patented ingredients including Cluster Dextrin[®], Carb10[®], Palatinose[™], and HydroMax[®]. To take things a step further, we added cinnamon bark extract and alpha-lipoic acid to promote carbohydrate utilization. When it comes to carbohydrate powders, nothing comes close to Demo Day.
