

Stable and Active Folate Formula

Zahler's Methylfolate is a stable and active form of folic acid. This important vitamin helps produce red blood cells, supports tissue health, and is essential for the normal functioning of the brain and nervous system. Adequate intake of folic acid during pregnancy helps support healthy fetal development.*

You may need additional supplements to support a healthy diet; consult your nutritionist for a formula that is right for you or contact us at 877-ASK-ZAHLER (877-275-9245) or ask@zahlers.com.

KEEP OUT OF REACH OF CHILDREN.

Do not use if safety seal is damaged or missing. If pregnant, nursing or on medication, consult with your healthcare practitioner.
