

Potent Lysine Supplement

Lysine is an essential amino acid, which means the body requires it, but cannot produce it on its own. In addition to supporting the production of collagen, Lysine is commonly used to help to support the body's natural healing process.*

You may need additional supplements to support a healthy diet; consult your nutritionist for a formula that is right for you contact us at 877-ASK-ZAHLER (877-275-9245) or ask@zahlers.com.

Keep out of reach of children. Do not use if safety seal is damaged or missing. If pregnant, nursing or on medication, consult with your healthcare practitioner.
