Our Story

I love running & nutrition, but battling injury after injury led my wife & me to rethink what we put into our bodies. When we learned that our daily gummy multivitamins & hydration powders were each loaded with over 70% sugar (!!) by weight, we dove into a two-year obsession with nutritionists to discover something better.

When combining the two into ONE and then infusing a proprietary blend of organic superfoods, enzymes & digestive probiotics, our body's natural flow absorbs the nutrients as one to give a natural, hydrating BOOST to our day, all without the need for sugar.

"We're Root'd to clean researched health, and we're humbled to have Root'd be a part of your health journey!"
