ZINC 10 mg
VITAMIN C 1000 mg

✓ No Added Sugars
 ✓ No Preservatives
 ✓ No GMOs
 ✓ Gluten-Free

PROPOLIS is a natural bee product that honeybees collect from the leaves, buds and stems of the plants. Honeybees use propolis to protect their beehive from fungus, bacteria and viruses. It acts as a natural protective barrier. We source our propolis from pristine Anatolian mountains which is home to 12,000 different plant species and one of the most biodiverse regions in the world.*

Zinc, Vitamin C and Vitamin D are integral parts of the immune system and show synergistic functions at various stages of the host defenses, such as the maintenance of the integrity of biological barriers and the functionality of cells that make up the innate and adaptive systems.**

Who We Are?
 Woman Entrepreneur and Food Scientist Dr Asi Samanci needed to find a solution to her son's weakened immune system. A pediatrician recommended that she try giving her son propolis. She started production of propolis for the first time for his son and subsequently developed a patented propolis extraction method. Based on this experience, she founded BEE&YOU to help those who want to support their immune system naturally.
