

REDEFINE CREATINE.

CREATINE MONOHYDRATE (MŌNŌ-):

The most relentlessly studied form, proven to enhance strength.**

CREATINE PHOSPHATE (-PHĀTE):

The form directly converted into usable energy.*

ASTRAGIN® & SODIUM (NA+):

Activates muscle creatine channel receptors to facilitate absorption.*

Based on 32 RCTs from two meta-analyses, creatine supplementation combined with 3d/week progressive resistance training showed greater increases in maximal strength across diverse populations.

When used in conjunction with resistance training over time.
