

## THE ULTIMATE LEAN MUSCLE-ACTIVATING CREATINE FORMULA

Cell-Tech® is the best for a reason. Specifically formulated for those looking to pack on lean muscle, Cell-Tech® is a scientifically engineered, third-generation creatine formula featuring a clinically validated blend of creatine monohydrate and carbohydrates. For more than two decades, Cell-Tech® has helped athletes who have trouble putting on size make unprecedented gains.▲ It's grown to become a legendary staple in the supplement regimen of serious competitors — and proof that MuscleTech® continues to push the limits of science and research every day.

### INCREASED STRENGTH, MUSCLE SIZE & FULLNESS

Cell-Tech® delivers a researched combination of creatine monohydrate and carbohydrates that triggers an insulin spike post-workout, transporting creatine straight into muscle while rapidly replenishing glycogen stores.

With increased strength and power, you will reach a new level of performance. The results speak for themselves, Cell-Tech® is scientifically shown to increase strength on the bench press, leg press and bicep curl.▲

### FAST MUSCLE GROWTH & ENHANCED NUTRIENT TRANSPORT

Every scoop delivers 5g of HPLC-certified creatine monohydrate, which helps reduce recovery time between sets, amplify strength and build more lean muscle! Every serving includes alpha lipoic acid (ALA), a powerful compound which research suggests improves the absorption of creatine and glucose — rapid uptake for rapid results!▲

### BCAAs & CELL-VOLUMIZING AMINOS

Quickly digested and absorbed, this formula supplies a 2:1:1 ratio of BCAAs, plus taurine and alanine — two of the most abundant amino acids in muscle, which aid in cell volumizing.▲ This is our most powerful post-workout creatine and BCAA formula ever!

**DIRECTIONS:** Take 1 scoop of Cell-Tech® with 6 oz. of water immediately following your workout. If you're not training that day, have your serving in the morning when you wake up. As with all creatine products, maintain an adequate state of hydration during use.

**FOR BETTER RESULTS:** Take 2 scoops of Cell-Tech® with 12 oz. of water immediately following your workout. If you're not training that day, take 2 scoops in the morning when you wake up.

**FOR BEST RESULTS:** For the first 7 days (loading stage): Take 2 scoops of Cell-Tech® with 12 oz. of water in the morning when you wake up and 2 scoops with 12 oz. of water immediately after your workout. If you're not training that day, take 2 scoops with 12 oz. of water in the morning when you wake up and 2 scoops with 12 oz. of water later in the day. **Maintenance stage:** Take 2 scoops of Cell-Tech® with 12 oz. of water immediately following your workout. If you're not training that day, take 2 scoops with 12 oz. of water in the morning when you wake up.

**WARNING:** Not intended for use by persons under 18. Do not use if pregnant or nursing. Consult a medical doctor if you have a medical condition or before starting any diet or exercise program. If you experience a skin rash or other allergic reaction, discontinue use and consult a medical doctor.  
**KEEP OUT OF REACH OF CHILDREN.**

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F).
