

N-TEST 600[®] ADVANCED

Natural Testosterone Amplifier: N-TEST 600[®] ADVANCED is jacked with 600 mg of Testofen[®], the clinically studied amount necessary to support healthy free flow testosterone levels. N-TEST 600[®] ADVANCED offers testosterone support naturally versus synthetically, providing all the positive bodybuilding results without the negative androgenic and estrogen-related side effects.*

Anabolic-Inducing Ingredients: N-TEST 600[®] ADVANCED includes 10 mg of elemental Boron, 350 mg of *Tribulus terrestris*, and is reinforced with 150 mg of *Smilax officinalis* and 100 mg of Black Maca Root Powder. Synergistically this superior formula supports increases in strength, size, lean muscle mass, and muscle hardness.*

Estrogen-Suppression Agent: N-TEST 600[®] ADVANCED is loaded with 100 mg of Diindolymethane (DIM) designed to block estrogen, allowing for more free or active testosterone.*

Bioavailability: Delivered via liquid gels, N-TEST 600[®] ADVANCED features BioPerine[®] for increasing the absorption of the mass-building and strength-increasing ingredients necessary to achieve anabolic results.*

Z-TEST[®]

Versatile Night-Time Anabolic Catalyst: Use Z-TEST[®] in conjunction with any testosterone supplement to fully support an increase in anabolic gains. Z-TEST[®] can also be used alone as a PCT (Post Cycle Therapy) after an intense on-cycle, specifically optimizing healthy testosterone levels at night while helping to restore your endocrine system back to its natural homeostasis.

Additional Estrogen-Suppression Support: Z-Test's formulation is designed with anti-aromatase agents that aid in blocking estrogen, which helps to avoid the negative androgenic and estrogen related side effects commonly associated with natural or artificial sources of testosterone supplementation.*

Boosts Natural Growth Factor: Z-TEST[®] supports the release of more natural growth factor, which the body produces less of with age. Z-TEST[®] uses these growth factors to increase muscle hypertrophy, support lean body definition, and improve recovery.*

Restful Sleep: Z-TEST's formulation also includes ingredients used to promote a more relaxing, restful & restorative sleep to aid recovery.*

Level 1: BEGINNER
ANABOLIC SWITCH:

Use N-TEST 600[®] ADVANCED for 2 weeks, then follow with Z-TEST[®] for 2 weeks. Repeat this process for 8 full weeks.

Advantage:

Switching on and off between both products provides a more constant and steady supply of healthy testosterone needed to achieve and sustain muscular gains over the course of 8 weeks. It also allows the body to maintain a more natural state of homeostasis, to help avoid adverse androgenic/estrogen-related side effects.*

Level 2: INTERMEDIATE
ANABOLIC SHIFT:

Use N-TEST 600[®] ADVANCED alone for 4 full weeks, then use Z-TEST[®] alone for 4 weeks.

Advantage:

Flood your system with an onslaught of testosterone to maximize full anabolic results in a short time frame. Follow with Z-TEST[®] to improve recovery. This staggered, dual attack TEST approach provides the positive anabolic muscle gains without the estrogen-related side effects.*

Level 3: HARDCORE
ANABOLIC MAYHEM:

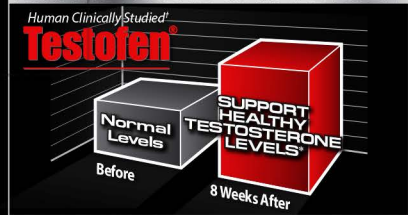

Use N-TEST 600[®] ADVANCED and Z-TEST[®] together daily for 4 intense weeks.

Advantage:

Overload your system with a relentless and constant 24-hour barrage of muscle-yielding testosterone to build more muscle, spike performance, and maximize anabolic results. This aggressive approach creates an environment of anabolic mayhem that takes a hold of your system quickly, to produce extreme results in an accelerated amount of time.*
