

ARE YOU AN ALPHA MALE?

Deep within every man is the primal desire to rise to the top — to improve, to perfect, to become invincible. Only a select few live to redefine the limits of masculinity, while the rest know nothing but mediocrity. These are the men who blast through the most grueling workouts with unparalleled ferocity, and still have the energy and desire for something more. With Test X180 Alpha®, you are invited to join the ranks of these few elite men for whom explosive sexual performance and impressive physical strength are a way of life. It's time to answer the call: are you an alpha male, or are you just one of the pack?

Test X180 Alpha delivers the unadulterated fuel you need to help you reach the pinnacle of sexual and physical performance. When paired with your workouts, the natural ingredient Testofen® is clinically demonstrated to raise your body's total testosterone levels for dramatic increases in libido, strength, and stamina. L-citrulline and NO3-T® nitrate technology catalyze the production of nitric oxide for increased blood flow throughout your body, revolutionizing what you only dreamed possible in the gym and in the bedroom.

DIRECTIONS

Workout Days: Take 2 tablets with breakfast and 2 tablets 30 minutes before working out.

Rest Days: Take 2 tablets with breakfast and 2 tablets with dinner.

THE SCIENCE OF ELITE PERFORMANCE

Alpha males don't settle for mediocrity. Yet many men unnecessarily go through life without ever fully realizing their physical strength and sexual potential. Test X180 Alpha® offers the complete solution for staggering virility, from dominating tough workouts in the gym to exceeding expectations in the bedroom.

Too many elite total testosterone boosters — even those that claim to ignite your libido — don't always give you the energy, power, and stamina you need to fully satisfy your desire. The scientists at Force Factor® knew they needed game-changing ingredients to help you take your performance to new extremes. They met this challenge with the inclusion of L-citrulline, a potent amino acid that boosts nitric oxide production, and three different forms of NO3-T® nitrates, which your body converts into nitric oxide — a compound that works to increase blood flow. This is the key to mind-blowing performance. Nitric oxide acts as a vasodilator, amplifying oxygen and nutrient delivery to your muscles during workouts and helping to intensify your experience in the bedroom.

The Force Factor team enhanced the Test X180 Alpha formula with one of the only safe and effective ingredients demonstrated to increase total testosterone levels: Testofen®. Testofen works in conjunction with your workout routine, resulting in soaring sex drive, endurance, and power. With Test X180 Alpha, you'll be able to transform your physique and have better sex.

But it doesn't stop there. The Peak Vitality Blend contains key constituents black maca, horny goat weed, longjack tongkat ali, and pine bark. When used in conjunction with PrimaVie® shilajit, ashwagandha, and cordyceps, these vital ingredients help increase blood flow to your extremities, intensifying your libido.

Even if you think you've done it all, you haven't experienced anything quite like this. Don't settle for mediocrity. Unleash Your Potential® with Test X180 Alpha.
