ORGANIC SUPERFOOD GREENS

MAGNIFIED WITH POWERFUL TRACE MINERALS

Grown in the nutrient dense, ancient vulcanic soil and primitive sea beds, Vulcanic Supergreens are continually being replenished by the region's high mountain rivers.

This raw superfood's heat-sensitive bio-active phytonutrients are protected by our patented cool-drying system, conserving nature's delicate balance of essential oils, enzymes, vitamins, and minerals. Vulcanic Supergreens are extremely high in superoxide dismutase, an anti-aging longevity enzyme.*
