

WE SUPPLEMENT THE FIT TO BECOME THE FITTEST

KRE-ALKALYN® is a patented pH correct form of creatine phosphate. With the addition of creatine phosphate into the muscle cells, the body increases its immediate energy supply. More energy during exercise translates into greater gains in strength, peak power output, endurance, speed, and muscle growth.*

Swolverine's **KRE ALKALYN®** does not cause bloating or cramping that is typically associated with creatine supplementation.*

SUGGESTED USE Mix one scoop with 8oz of water before or during training for optimal performance and results.

WARNING: Consult with a physician prior to use if you have any medical conditions. Do not use if pregnant or lactating.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
