

Hyaluronic Acid (HA) is a structural molecule widely distributed throughout the body's cells. HA is thought to support cell-to-cell interaction and impact collagen synthesis.

BioCell Collagen® is a multi-patented, scientifically-substantiated ingredient consisting of naturally occurring hydrolyzed collagen type II, chondroitin sulfate, and hyaluronic acid in a highly absorbable matrix form.

MSM (methylsulfonylmethane) is an organic source of sulfur, a mineral necessary for the production of collagen, the main structural component of cartilage and connective tissue.†

Warnings: Pregnant or lactating women and people with known medical conditions and/or taking drugs should consult with a qualified healthcare practitioner prior to taking dietary supplements. Discontinue use and consult your doctor if any adverse reactions occur.

†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Manufactured in the USA with imported and US ingredients.

Item # 13660

Manufactured for Nature's Lab
6980 W. Warm Springs Rd. Ste. 100
Las Vegas, NV 89113
