

America's #1 Anti-Aging Therapy

Human growth hormone, or hGH, has been associated with initiating a cascade of beneficial effects throughout the body, such as strengthening the underlying structure of your skin, stimulating collagen production, causing fat cells to shrink, and more.

SeroVital's Renewal Complex is clinically validated and is a safe and natural way to increase your hGH to more youthful levels.* Experts believe hGH can help reduce fine lines and wrinkles, boost mental acuity, decrease body fat, promote deeper, more restorative sleep, support immunity, and increase energy.

SeroVital® Rapid Dissolve Powder gives you the same full-strength Renewal Complex as SeroVital hGH capsules in a delicious, take-anywhere powder form.

3 steps to success

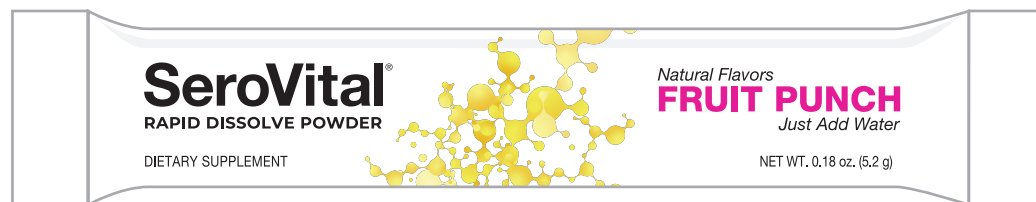

Mix 1 sachet in 6-8 oz. water. Drink entire serving on an empty stomach.

Drink only water and do not eat for 2 hours before and after.

Real change takes time. Be patient. It's worth the wait.

Represents actual sachet size.

**SeroVital is clinically validated to naturally increase human growth hormone levels and improve sleep quality, both of which decline with age.*
